

BLACKTECH SOLUTIONS CORP

Licensed Electrical Contractor — Chicagoland

In Response To

City of Chicago RFP #66215

EV Charging Stations

Specification No. 1332033

Category A — 2FM Fleet Facilities

Category B — CDOT Public Sites

Submitted by: Derrell Black, Owner

Company: Blacktech Solutions Corp

Phone: (312) 965-2782

Email: leads@blacktechsolutionscorp.com

Submission Date: June 13, 2026

Proposal Deadline: June 16, 2026 @ 3:00 PM CT

Section 3 — Executive Summary

Blacktech Solutions Corp is a licensed electrical contracting firm headquartered in Chicago, Illinois. We are submitting this proposal in response to the City of Chicago's Request for Proposals No. 66215 for EV Charging Station procurement, installation, and maintenance services. We are bidding on **both Category A (2FM Fleet Facilities)** and **Category B (CDOT Public Charging)**.

Our Value Proposition: Blacktech Solutions Corp brings Chicagoland-based electrical contracting expertise, a commitment to prevailing wage compliance, and deep community ties to the 60628 ZIP code and South Side communities — directly aligning with the City's goals of equity-driven infrastructure deployment.

Why Blacktech Solutions Corp

- **Chicago-based contractor** — local workforce, fast mobilization, city knowledge
- **Licensed electrical contractor** — full compliance with City of Chicago electrical permitting
- **Prevailing wage compliant** — committed to Illinois Prevailing Wage Act and Davis-Bacon compliance on all City work
- **Equity-focused** — South Side Chicago base supports the City's environmental justice priorities
- **Turnkey capability** — electrical design, permitting, installation, and long-term maintenance
- **Partnerships** — established relationships with EVSE manufacturers and electrical suppliers for competitive hardware sourcing

Proposal Summary

Respondent	Blacktech Solutions Corp
Owner	Derrell Black
License	Illinois Licensed Electrical Contractor
City	Chicago, IL
Categories Bid	Category A (2FM) and Category B (CDOT)
Contract Term	60 months (5 years) + 2 option years
Prevailing Wage	Full compliance committed
Buy America	All EVSE hardware sourced from U.S. manufacturers
Bonding Capacity	100% of contract value — Performance & Payment Bond

Section 4 — Company Overview & Qualifications

About Blacktech Solutions Corp

Blacktech Solutions Corp is a Chicago-based licensed electrical contracting company specializing in residential, commercial, and municipal electrical infrastructure. Founded and led by Derrell Black, we serve clients across the Chicagoland area with a focus on quality workmanship, code compliance, and community impact.

Our team is experienced in large-scale electrical installations, service upgrades, ComEd coordination, and infrastructure projects requiring coordination with municipal departments. We are committed to hiring local workers and supporting the South Side Chicago community through every project we undertake.

Core Capabilities

- Electrical service upgrades (100A – 400A)
- Commercial and industrial power distribution
- EV charger rough-in, panel upgrades, and dedicated circuit installation
- Conduit installation (EMT, rigid, PVC) — underground and above-grade
- ComEd utility coordination and service entrance work
- City of Chicago permit filing and inspection management
- Prevailing wage and Davis-Bacon compliant workforce
- Low voltage systems, data, and control wiring

Licenses & Certifications

Electrical Contractor License	State of Illinois — Licensed Electrical Contractor
City of Chicago	City of Chicago Electrical Contractor License
Insurance	General Liability, Workers' Compensation, Auto — on file
EVITP	EV Infrastructure Training Program Certification — Key personnel certified / in process
OSHA	OSHA 10/30 — All field personnel

Service Area

Blacktech Solutions Corp operates throughout the City of Chicago and surrounding Chicagoland municipalities, with particular depth in the South Side and Southwest Side communities. Our Phase I priority sites (2352 S Ashland, 3638 S Iron, 65th & State, 10408 S Vincennes) are within our primary service zone — enabling rapid mobilization and minimal travel overhead.

Community Connection: Blacktech Solutions Corp is rooted in the 60628 ZIP code (Roseland/West Pullman). Our team lives and works in the communities where this infrastructure will be deployed — creating genuine local investment in the success of the City's EV charging program.

Section 5 — Category A: 2FM Fleet Facilities Technical Approach

Understanding of Scope

Blacktech Solutions Corp understands that Category A requires procurement, installation, configuration, and ongoing maintenance of EV charging stations at approximately 66 City-owned fleet facility sites over a 60-month contract term. The City (2FM) will provide all electrical wiring and infrastructure at each site; Blacktech will supply and install EVSE hardware, integrate with the AssetWorks FuelFocus platform, and provide 24/7 monitoring and support.

EVSE Hardware Partners

Blacktech Solutions Corp will source EVSE hardware from U.S.-based manufacturers meeting all City specifications. Our proposed hardware partners include established brands offering:

- **Level 2 AC Chargers:** Min. 208V/30A, SAE J1772, dual-port, 15 ft. retractable cable, OCPP 1.6/2.0 compliant
- **Level 3 DC Fast Chargers:** Min. 208V/180A, CHAdeMO + CCS connectors, ≥22 kWh capacity, cloud-managed
- **Solar Canopy Chargers:** Min. 4 kW, 20'L × 10'W canopy, 100 mph wind rating, 8 ft. clearance, CHAdeMO + CCS

AssetWorks FuelFocus Integration

All installed EVSE units will be configured for full integration with the City's AssetWorks FuelFocus fleet management platform. Integration will deliver:

- Real-time kWh consumption per vehicle/unit
- Odometer and timestamp data capture at each charge event
- Unit ID and site location tagging
- Remote shutoff capability via networked software
- API data feed compatible with AssetWorks reporting requirements

Phase I Installation Plan — 10 Priority Sites

Blacktech commits to completing all Phase I installations within **6 months of contract award**, as required. Our approach:

Site Address	Charger Type	Target Completion
2352 S Ashland	Level 2 AC	Month 2
4211 W Ferdinand	Level 2 AC	Month 2

3638 S Iron	Level 2 AC	Month 3
4243 Neenah	Level 2 AC	Month 3
4808 W Wilson	Level 2 AC	Month 3
4900 W Sunnyside	Level 2 AC	Month 4
10408 S Vincennes	Level 2 AC	Month 4
6445 N Ravenswood	Level 2 AC	Month 5
1869 W Pershing	Level 2 AC	Month 5
65th & State	Level 2 AC	Month 6

Maintenance & Support Plan

- **24/7 Remote Monitoring:** All units networked to cloud dashboard; alerts triggered on fault or downtime
- **Response Time:** 4-hour response for critical faults; 24-hour for non-critical
- **Preventive Maintenance:** Quarterly inspections per unit per City schedule
- **Parts Inventory:** Local Chicago warehouse stock of common replacement parts (cables, connectors, control boards)
- **Transportation:** Blacktech vehicles equipped for unit transport City facility ↔ contractor shop
- **Uptime Commitment:** ≥95% uptime target across all installed units

Section 6 — Category B: CDOT Public Charging Technical Approach

Understanding of Scope

Category B requires a fully turnkey solution across 7 identified CDOT public locations — including design, utility coordination, civil and electrical construction, EVSE procurement, installation, commissioning, and ongoing operations & maintenance. Blacktech Solutions Corp will serve as the prime electrical contractor, self-performing all electrical work and partnering with civil/structural subcontractors as needed for canopy and site work.

Turnkey Delivery Approach

Phase 1 — Design & Permitting (Months 1–3)

- Site survey and load analysis for each of the 7 locations
- Electrical design drawings stamped by licensed Illinois PE
- City of Chicago building and electrical permit applications
- ComEd utility coordination — service upgrade requests, transformer sizing
- ADA compliance review per ADAAG standards
- Phase 1 Environmental Site Assessment where required

Phase 2 — Site Preparation & Construction (Months 3–9)

- Electrical trenching and conduit installation (underground service runs)
- Service entrance upgrades and panel installation
- Transformer coordination with ComEd
- Site prep: bollards, signage, ADA-compliant surfaces, lighting
- Cable management and weatherproof enclosures
- All work performed by EVITP-certified Illinois licensed electricians
- Davis-Bacon prevailing wages paid to all workers

Phase 3 — EVSE Installation & Commissioning (Months 8–12)

- EVSE hardware delivery and installation (pedestal/wall mount per site)
- Network configuration, OCPI integration, and software commissioning
- Load testing and ComEd final inspection
- City inspection and certificate of occupancy/completion
- Staff training for City personnel on charger operation and monitoring

Phase 4 — Operations & Maintenance (Months 12–60)

- Minimum **80% station uptime** guaranteed (target: 90%+)

- Real-time monitoring: utilization, energy, uptime dashboards
- Preventive maintenance schedule per City approval
- Corrective maintenance within 4 hours (critical) / 24 hours (non-critical)
- Annual uptime and performance reporting to CDOT
- Decommissioning plan available at end of pilot

Buy America Compliance

Blacktech Solutions Corp commits to 100% Buy America compliance for all EVSE hardware:

All charging stations will be sourced from U.S. manufacturers with domestic component content exceeding 55% of total component cost, in accordance with DOE Grant Term 45 and IIJA Buy America requirements. Documentation and manufacturer certifications will be provided prior to procurement.

Equity & Environmental Justice

Blacktech Solutions Corp strongly supports CDOT's equity goals for the EV Charging Pilot Program. Our team will prioritize:

- Hiring local Chicago residents for construction and maintenance roles
- Targeting South Side and West Side sites for community workforce development
- Partnering with EVITP training programs to build local EV electrician capacity
- Transparent community engagement during site construction

Cybersecurity Controls

- All EVSE units OCPP 1.6/2.0 compliant with TLS 1.2+ encryption
- Network segmentation between EVSE management and public internet
- Firmware update management via vendor-managed secure channel
- Incident response plan in place for cyber events
- Annual penetration testing of EVSE management platform

Section 7 — Key Personnel & Staffing Plan

Name	Title / Role	Certifications	Availability
Derrell Black	Owner / Project Executive	IL Licensed Electrical Contractor, OSHA 30	100% — Chicago, IL
[Field Supervisor TBD]	Lead Electrician / Field Supervisor	IL Journeyman Electrician, EVITP, OSHA 30	100% — Chicago, IL
[Project Manager TBD]	Project Manager	PMP or equivalent, OSHA 10	100% — Chicago, IL
[Engineer TBD]	Electrical Engineer (PE)	Illinois PE License — Electrical	Contract basis
[O&M Tech TBD]	O&M Technician	EVITP Certified, OSHA 10	100% — Chicago, IL

Note: Blacktech Solutions Corp is actively recruiting EVITP-certified electricians for this contract. Final staffing plan with full resumes will be provided upon contract award or upon City request during evaluation.

Workforce Development Commitment

Blacktech Solutions Corp is committed to building EV infrastructure workforce capacity on the South Side of Chicago. We will partner with local EVITP training programs to certify additional electricians during the first 6 months of the contract, ensuring all field personnel meet the City's EVITP certification requirement for Category B work.

Organizational Structure

- **Project Executive (Derrell Black)** — overall contract accountability, City liaison, financial oversight
- **Project Manager** — day-to-day scheduling, permitting, subcontractor coordination
- **Field Supervisor** — on-site electrical work, crew management, safety compliance
- **PE Engineer** — stamped drawings, utility coordination, technical review
- **O&M Technician** — ongoing monitoring, maintenance, and repair response

Section 8 — Project References

The following references demonstrate Blacktech Solutions Corp's experience with electrical contracting, service upgrades, and infrastructure projects in the Chicago area. Additional references available upon request.

Reference 1

Project	400A Electrical Service Upgrade — Residential
Client	[Client Name — available upon request]
Address	6515 S Drexel Ave, Chicago, IL
Scope	Complete 400A service upgrade including demo, labor, and materials. \$24,990 project value.
Contact	Available upon request

Reference 2

Project	Electrical Labor — 10150 S Luella Ave
Client	[Client Name — available upon request]
Address	10150 S Luella Ave, Chicago, IL
Scope	\$12,500 electrical labor proposal — residential commercial scope
Contact	Available upon request

Reference 3

Project	ComEd Electrification Program — Multiple Properties
Client	Elevate Energy / ComEd Electrification Partners
Scope	Multi-unit electrical upgrades, panel replacements, and electrification retrofits in Cook County under ComEd Electrification Program
Contact	Available upon request

Note to Evaluators: Blacktech Solutions Corp is a growing contractor actively expanding into municipal EV infrastructure. Our strong foundation in electrical contracting, ComEd coordination,

and Chicago-area permitting provides the technical base for this contract. We welcome the opportunity to demonstrate our capabilities on Phase I sites.

Section 9 — Implementation Schedule

Category A — 2FM Fleet Facilities

Month	Activity	Milestone
1–2	Contract mobilization, EVSE vendor procurement, staff onboarding	Vendor POs issued
2–3	Phase I site surveys, equipment delivery, begin installations (Sites 1–4)	4 sites complete
3–4	Phase I installations continue (Sites 5–7), AssetWorks integration testing	7 sites complete
4–6	Complete Phase I (Sites 8–10), commissioning, City inspection, handover	✓ Phase I complete
6–12	Phase II site planning (90 days after award), begin Phase II installations	Phase II underway
12–60	Ongoing installations, maintenance, monitoring, annual reporting	Steady-state O&M

Category B — CDOT Public Sites (7 Locations)

Month	Activity	Milestone
1–2	Site surveys, utility assessment, preliminary design for all 7 sites	Survey complete
2–3	PE-stamped design drawings, permit applications filed	Permits submitted
3–5	ComEd utility coordination, transformer orders, civil contractor mobilization	Utility confirmed
3–8	Site preparation: trenching, conduit, electrical rough-in, ADA work	Rough-in complete
6–10	EVSE hardware delivery, installation, network configuration	Hardware installed
10–12	Final inspections, commissioning, City acceptance testing, handover	✓ All 7 sites live
12–60	O&M services: monitoring, PM, corrective maintenance, annual reporting	Steady-state O&M

Commitment: Blacktech Solutions Corp commits to full delivery and commissioning of all Category B sites within **12 months of contract execution**, as required by the RFP.

Section 10 — Schedule of Compensation: Category A (Exhibit A8)

Note: Per RFP instructions, unit price placeholder of **\$0.01** has been entered in the iSupplier e-procurement system. Actual pricing is submitted herein as an attachment and will not be evaluated through the system.

Line Item	UOM	Est. Qty	Unit Price	Notes
Level 2 EV Charging Stations (Supply & Install)	Each	2,600	\$_____	Dual-port, SAE J1772, 208V/30A
DC Fast Charging Stations — Level 3 (Supply & Install)	Each	37	\$_____	CHAdEMO + CCS, 208V/180A
Solar EV Charging Stations (Supply & Install)	Each	16	\$_____	4kW min., canopy style, wind-rated
Parts — Mechanical & Electrical (L2)	Disc. from List	280,000	_____% disc.	Discount from manufacturer list
Parts — Mechanical & Electrical (L3)	Disc. from List	500,000	_____% disc.	Discount from manufacturer list
Maintenance Labor — Regular Hours (7am–3pm)	Hour	1,000	\$_____	Prevailing wage rate applies
Transportation (City Facility ↔ Shop, each way)	Each	2,000	\$_____	Per trip, both directions
Annual Service Agreement — L2 (per unit)	Unit/Year	TBD	\$_____	Preventive + reactive maintenance
Annual Service Agreement — L3 (per unit)	Unit/Year	TBD	\$_____	Preventive + reactive maintenance

Pricing Note: Unit prices in the table above require your EVSE vendor quotes before submission. Contact your EVSE hardware partners (e.g., ChargePoint, Blink, Enel X, Clipper Creek) for current pricing. Maintenance labor rates must meet or exceed Cook County prevailing wage rates for electricians.

Section 11 — Schedule of Compensation: Category B (Exhibit B6)

Per-site not-to-exceed cost table for all 7 CDOT EV charging pilot locations. Costs are submitted as not-to-exceed amounts per cost category.

Cost Category	Basis	Per-Site NTE	7-Site Total NTE
Design (engineering & permitting prep)	Per site	\$_____	\$_____
Permitting	Per site	\$_____	\$_____
Phase 1 Environmental Site Assessment	If required	\$_____	\$_____
Surety / Bonding	Per site	\$_____	\$_____
Utility Infrastructure (make-ready, service, transformer)	Per site	\$_____	\$_____
Site Prep & Construction (civil, signage, bollards, ADA)	Per site	\$_____	\$_____
EVSE Hardware & Software (supply, warranty, licenses)	Per site	\$_____	\$_____
Networking & Data Services	Per site / year	\$_____	\$_____
Maintenance Services (preventive & corrective, 2-yr)	Per site	\$_____	\$_____
TOTAL PROJECT COST		\$_____	\$_____
Total Cost per Port (÷ # of charging ports)		\$_____	—
Total Cost per kWh (÷ projected Year 1 kWh capacity)		\$_____	—

Section 12 — Insurance & Bonding Commitment

Blacktech Solutions Corp commits to maintaining all required insurance coverage for the full term of the contract, naming the City of Chicago as additional insured on a primary, non-contributory basis.

Coverage Type	Required Limit	Status
Workers' Compensation	Statutory / \$1M Employer's Liability	✓ In Place
Commercial General Liability	\$1M per occurrence / \$2M aggregate	✓ In Place
Automobile Liability	\$1M per accident	✓ In Place
Umbrella / Excess Liability	\$10M per occurrence	Will obtain prior to award
Pollution Liability	\$5M per occurrence	Will obtain prior to award
Professional Liability / Tech E&O	\$3M per claim	Will obtain prior to award
Cyber Liability	\$5M per incident	Will obtain prior to award
Builders Risk (Cat. B)	Replacement cost, all-risk	Will obtain prior to award

Bonding

Blacktech Solutions Corp will provide a **Performance and Payment Bond at 100% of the contract value** within 5–7 calendar days of written notice from the City, as required. Surety will be selected from the current U.S. Treasury Department Circular 570 list with underwriting limitation exceeding the contract amount.

Section 13 — Prevailing Wage Compliance

Blacktech Solutions Corp commits to full compliance with the **Illinois Prevailing Wage Act (820 ILCS 130/.01 et seq.)** for all Category A (2FM) work, and the **Davis-Bacon Act (40 U.S.C. § 276)** for all Category B (CDOT) federally funded construction work. All workers will be paid at or above the prevailing rate of wages for Cook County. Certified payroll records will be maintained and available for City audit upon request. The Davis-Bacon wage determination poster (WH-1321) will be posted at all Category B work sites.

Section 14 — Buy America Certification (Category B)

Blacktech Solutions Corp certifies that all EVSE hardware procured under Category B will be **manufactured in the United States** with domestic component cost exceeding **55% of total component cost**, in compliance with DOE Grant Term 45 and IIJA Buy America requirements. Manufacturer certifications will be provided prior to equipment procurement and delivery.

Section 15 — Exceptions to Sample Agreement

Blacktech Solutions Corp takes **no exceptions** to the Work Services Agreement (Category A) or Book 1 Terms and Conditions (Category B) as provided in the RFP. We agree to execute the contract in the form presented by the City.

Section 16 — Conflict of Interest Disclosure

Blacktech Solutions Corp has no actual or potential conflicts of interest with the City of Chicago, the Department of Fleet and Facility Management, the Chicago Department of Transportation, or any City official or employee involved in this procurement. No City employees or officials have a financial interest in Blacktech Solutions Corp.

Section 17 — Sexual Harassment Policy Affidavit

Blacktech Solutions Corp maintains a written sexual harassment policy as required by the Illinois Human Rights Act and MCC 2-92-612. The policy prohibits sexual harassment in the workplace and provides a reporting procedure for complaints. A copy of the policy is available upon request. The undersigned hereby affirms that Blacktech Solutions Corp is in compliance with MCC 2-92-612.
