SCOPE OF WORK

BSC-SOW-2026-SCH001

October 14, 2026

PROJECT INFORMATION

Site: 10 N Martingale Rd, Suite 650, Schaumburg, IL 60173
Work Type: Security Panel — 4-Door Access Control
Door Positions: Front · Back · TD

Job No.: 26-495
Head-End: 4-door access control panel (smart hub)
Pricing: Scope only — no pricing in this document

Scope of Work — Security Panel / Access Control

- Furnish and install 4-door access control head-end panel (smart hub) at the designated security location
- Furnish and install card reader at each door position — Front, Back, TD
- Pull and terminate reader cable — 18/4, no shield (S+) — one run per reader
- Install door strike — low profile (LP) — on 18/4 cable (orange)
- Install door contact on 22/2 cable (green)
- Install maglock and request-to-exit (REX) on 22/4 cable (red), N/O, on the maglock door
- Terminate, label, and test all field devices back at the panel
- Verify port-to-door mapping — Port 1-1 = Front; Reader 2 = Back; Reader 3 = TD
- Program credentials and door groups; demonstrate operation to the owner representative
- Provide as-built wire schedule and test documentation at closeout

CABLE SCHEDULE — PER FIELD WIRING NOTE

DEVICE	CABLE	NOTES
Card reader	18/4 — no shield (S+)	Front, Back, TD
Door strike (LP)	18/4 — orange	Strike door — separate door from maglock
Door contact	22/2 — green	Per door position
Maglock / REX	22/4 — red	N/O — maglock door
Panel ports	—	Port 1-1 = Front · Reader 2 = Back · Reader 3 = TD

Notes:

- **Scope only — no pricing included.** Hardware quantities and pricing to be provided by the security vendor.
- Door strike and maglock are on **separate doors**.
- Door count, device quantities, and cable lengths to be confirmed against the approved door schedule and site conditions.
- Contractor to verify power source, cable pathway, and head-end location prior to rough-in.
- All low-voltage work performed by a licensed electrician (ICC EESP, EV, DG certified).
- Coordinate access and work hours with building management / owner representative.
