## Blacktech Solutions Corp — 2026 Marketing Plan

TEN-PLATFORM EXPOSURE GROWTH STRATEGY

### TABLE OF CONTENTS

1. Executive Summary
2. The Blacktech Ecosystem & Content Funnel
3. Platform-by-Platform Growth Strategies
4. Organic Growth Strategy
5. Paid Advertising Strategy
6. Partnerships & Community Outreach
7. 30/60/90 Day Action Plan
8. Budget Estimate — Free vs Paid Tier
9. KPIs to Track Per Platform

## 1 Executive Summary

Blacktech Solutions Corp operates a ten-property digital ecosystem spanning contractor matching, search, education, video, crypto, community networking, energy enrollment, social media, and business organization. Each platform serves a distinct purpose but feeds into one unified funnel: **educate → reward → connect → contract → save → repeat**.

This plan provides actionable, platform-specific SEO, content, and growth tactics for every property. The goal is maximum organic exposure

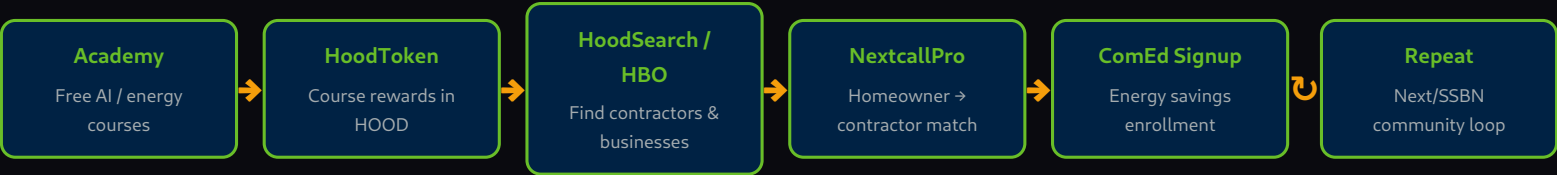

supplemented by targeted paid campaigns, grassroots community partnerships, and a disciplined 30/60/90-day execution cadence.

CORE THESIS

Own the search results for Black contractors, energy savings, and AI education in Chicago's south suburbs. Every platform must rank for its core keywords, cross-link to every other platform, and funnel users toward a conversion event — a course signup, a token reward, a contractor lead, a ComEd enrollment, or a network join.

2The Blacktech Ecosystem & Content Funnel

The ecosystem funnel is the backbone of every growth tactic in this plan. Users enter at any point and are guided through the full loop.

HOW THE FUNNEL WORKS IN PRACTICE

**Step 1:** A homeowner finds a free Academy course on energy savings via Google search. **Step 2:** Completing the course earns HOOD tokens. **Step 3:** Token wallet page promotes HoodSearch to find a Black contractor. **Step 4:** HoodSearch lists NextcallPro contractors. **Step 5:** Homeowner submits a job through NextcallPro. **Step 6:** After the job, contractor enrolls homeowner in ComEd energy savings. **Step 7:** Homeowner joins Next/SSBN community. Repeat.

3Platform-by-Platform Growth Strategies

1. Command Center

blacktechsolutionscorp.com :8090

HIGH

CURRENT STATE

Central hub / landing page for all Blacktech operations. Acts as gateway to all sub-platforms and services. Port 8090.

SEO STRATEGY

Target keywords: Blacktech Solutions, electrical contractor Dolton IL, Chicago electrical contractor, Black-owned electrical contractor

Meta tags needed: LocalBusiness schema with NAP (name, address, phone), service area list (Dolton, South Suburbs, Chicagoland), OG tags with logo. Add JSON-LD Organization schema linking to all 10 sub-platforms as sameAs properties. Add BreadcrumbList schema. Submit XML sitemap to Google Search Console.

CONTENT STRATEGY

Platform directory page (all 10 properties with icons + links + descriptions). Company story page. Service area landing pages per suburb (Dolton, Calumet City, Harvey, Chicago Heights, South Holland). Case study portfolio with photos. Monthly "ecosystem update" blog post.

GROWTH TACTICS

**Organic:** Google Business Profile optimization (posts weekly), local citation building (Yelp, BBB, Angi, Thumbtack), directory listings on Black-owned business directories. **Paid:** Google Ads for "electrical contractor Dolton IL" (geo-targeted 15-mile radius), retargeting pixel on all visitors.

CROSS-PROMOTION

Primary navigation links to all 9 other platforms. Footer ecosystem map. Every blog post ends with CTA to Academy + NextcallPro + ComEd.

TIMELINE

30d: GBP optimization + sitemap + schema 60d: Service area pages 90d: Case studies + retargeting

## 2. NextcallPro

nextcallpro.net :8141

HIGH

### CURRENT STATE

Homeowner-to-contractor matching platform. Core revenue-generating property. Port 8141.

### SEO STRATEGY

Target keywords: Chicago electrician electrical contractor Chicago hire electrician south suburbs emergency electrician Chicago electrical repair Dolton

Meta tags: Service schema (Electrician category), LocalBusiness schema, FAQPage schema ("How to hire an electrician in Chicago"), Review schema. City-specific landing pages (Chicago, Dolton, Calumet City, Harvey, South Holland). Blog targeting "electrical panel upgrade cost Chicago", "when to call an electrician".

### CONTENT STRATEGY

Weekly blog: electrical safety tips, panel upgrade guides, code compliance posts, seasonal ("winter electrical tips Chicago"). Contractor spotlight profiles. Before/after project galleries. Video testimonials (hosted on LiveVue, embedded here). Cost guides ("how much does an electrician cost in Chicago").

### GROWTH TACTICS

**Organic:** GBP posts linking to NextcallPro, Nextdoor business page, HomeAdvisor/Angi cross-listing, Yelp portfolio photos. **Paid:** Google Ads "Chicago electrician" (high priority, exact + phrase match), Facebook lead-gen form ads targeting homeowners in south suburbs zip codes, retargeting from ComEd signup page.

### CROSS-PROMOTION

After job completion → auto-suggest ComEd energy savings enrollment. Lead form thank-you page → Academy course offer. Contractor profiles link to HoodSearch listings. All emails link to Next/SSBN.

### TIMELINE

30d: City landing pages + schema 60d: Blog cadence + Google Ads 90d: Video testimonials + retargeting funnel

## 3. HoodSearch

hoodsearch.net :8160

HIGH

### CURRENT STATE

Contractor search engine — directory of Black contractors. Port 8160.

### SEO STRATEGY

Target keywords: find Black contractors Black contractor directory Chicago Black-owned electrician Chicago minority contractor directory Illinois Black tradesman directory

Meta tags: SearchResultsPage schema, ItemList schema for contractor listings, Organization schema per contractor profile. Create category pages (electrical, plumbing, HVAC, roofing, general). City/neighborhood pages (South Side, Dolton, Harvey, Englewood, Auburn Gresham).

### CONTENT STRATEGY

Weekly contractor spotlight articles. "How to verify a contractor's license in Illinois" guide. Neighborhood business guides. Top-10 lists ("10 Black electricians in Chicago"). Comparison content (HoodSearch vs Google for finding Black contractors). Contractor signup CTA content.

### GROWTH TACTICS

**Organic:** Free contractor listings (remove barrier to entry), SEO for "Black contractor" long-tail, Reddit r/chicago and r/Blackpeople posts, community Facebook groups. **Paid:** FB/IG boosted posts targeting south side zip codes, Google Ads "Black contractor Chicago".

### CROSS-PROMOTION

Each contractor profile → NextcallPro lead form. Search results sidebar → Academy courses. Footer → ComEd enrollment for homeowners. Sign-up page → HBO business org.

### TIMELINE

30d: Category + city pages + schema 60d: Contractor onboarding drive 90d: Spotlight content + paid

CURRENT STATE

Free AI and energy education courses. Top-of-funnel entry point for the ecosystem. Port 8115.

SEO STRATEGY

Target keywords: free AI courses Chicago learn blockchain free energy education courses free online electrical training AI for beginners Chicago

Meta tags: Course schema (schema.org/Course) with provider, duration, free pricing. HowTo schema for step-by-step lessons. FAQPage for course FAQ. Each course gets its own indexable page with title, description, learning outcomes. Sitemap includes all course pages. Add BreadcrumbList schema.

CONTENT STRATEGY

Course catalog page (grid of courses with thumbnails). Each course = 5-10 video lessons (hosted on LiveVue, embedded here). Printable PDF certificates on completion. Blog: "What is AI?", "Blockchain basics for the community", "How solar saves you money", "Why energy efficiency matters in Chicago". Weekly "Academy update" email newsletter.

GROWTH TACTICS

Organic: "Free" is the hook — rank for "free AI course", "free energy course". Pinterest pins for course infographics. YouTube Shorts teasers. Library flyer distribution (see Partnerships). Paid: Facebook boosted posts ("Learn AI for free — Chicago"), Instagram Reels ads targeting 18-35 south side, TikTok organic.

CROSS-PROMOTION

Course completion → HOOD token reward. Certificate page → NextcallPro CTA ("Now hire a contractor"). Course sidebar → ComEd signup. Footer → Next/SSBN join. Every video embedded from LiveVue drives traffic back.

TIMELINE

30d: Course schema + catalog page 60d: 5 courses live + flyers 90d: Certificate system + token integration

CURRENT STATE

Self-hosted PeerTube video platform. Hosts Academy course videos, energy education, electrical training content. Uses Seattle Seahawks BTV color palette.

SEO STRATEGY

Target keywords: Blacktech TV energy education videos electrical training videos free trades education videos Chicago community TV

Meta tags: VideoObject schema for each video (thumbnail, duration, uploadDate, embedUrl). PeerTube generates RSS feed — submit to podcast directories. OG video tags for social sharing. Channel page with Organization schema.

CONTENT STRATEGY

Weekly upload schedule: Monday = Academy lesson video, Wednesday = Contractor spotlight interview, Friday = Energy tip short. Live stream monthly "Community Energy Hour". Create playlists: AI Basics, Blockchain 101, Electrical Safety, Energy Savings, Contractor Spotlights. Cross-post 60-sec clips to YouTube Shorts, TikTok, Instagram Reels with "full video on LiveVue" CTA.

GROWTH TACTICS

Organic: YouTube Shorts as teaser → full video on LiveVue. Embed videos on Academy, NextcallPro, ComEd pages. RSS feed to podcast platforms. Paid: Boost best-performing Shorts on IG/TikTok. Sponsored content on local news sites linking to LiveVue channel.

CROSS-PROMOTION

Every video description → Academy course link, NextcallPro CTA, ComEd signup link. Channel page sidebar → all 10 platforms. Video end screens → "Next: Watch more on LiveVue" + "Enroll in Academy".

TIMELINE

30d: VideoObject schema + RSS feed 60d: Weekly upload cadence 90d: Live stream + Shorts funnel

## 6. HoodToken

hoodtoken.io :8130

MEDIUM

### CURRENT STATE

Crypto/token platform. Rewards users for Academy course completion, community participation. Port 8130.

### SEO STRATEGY

Target keywords: HOOD token community crypto Chicago blockchain wealth building earn crypto by learning Black-owned cryptocurrency

Meta tags: FinancialProduct schema, FAQPage ("What is HOOD token?", "How do I earn HOOD?"), Article schema for educational content. Landing page optimized for "earn crypto free" + "learn to earn crypto". Add disclaimer schema for crypto compliance.

### CONTENT STRATEGY

"Learn to Earn" landing page (take Academy courses → earn HOOD). Token utility page (what HOOD can be used for). Blog: "Blockchain for the community", "How crypto builds generational wealth", "Why HOOD is different from other tokens". Whitepaper PDF. Wallet setup guide. Monthly token economy report.

### GROWTH TACTICS

**Organic:** "Earn free crypto" SEO is high-volume. Cross-promote through Academy completion flow. Reddit r/CryptoCurrency, r/BlackBusiness. Twitter/X crypto community posts. **Paid:** Limited — crypto ad restrictions on Google/FB. Use Twitter/X ads and crypto newsletter sponsorships.

### CROSS-PROMOTION

Academy completion → token reward notification. Token wallet page → "Spend HOOD on HoodSearch premium listings". Token page → Next/SSBN community join. Footer → ComEd (save energy, earn more HOOD).

### TIMELINE

30d: Learn-to-Earn landing page + FAQ schema 60d: Academy integration + whitepaper 90d: Token utility expansion + Twitter presence

## 7. Next / SSBN

network.blacktechsolutionscorp.com :8199

MEDIUM

### CURRENT STATE

South Side Business Network — community network for Black businesses. Port 8199.

### SEO STRATEGY

Target keywords: south side business network Chicago Black business directory Black business network Chicago south side entrepreneurs Black business community Illinois

Meta tags: Organization schema, Member directory with ItemList schema, Event schema for network meetings. LocalBusiness schema for member businesses. Create neighborhood-specific network pages.

### CONTENT STRATEGY

Member spotlight articles. Business resource guides (grants, loans, certifications for Black businesses in IL). Event calendar (networking mixers, workshops). "Why join SSBN" landing page. Member testimonials. Weekly community newsletter.

### GROWTH TACTICS

**Organic:** Member referral program (bring a business, earn HOOD). Facebook groups (South Side Chicago business groups). LinkedIn groups. Chamber of Commerce cross-promotion. **Paid:** LinkedIn ads targeting Black business owners in Chicagoland. FB boosted posts for events.

### CROSS-PROMOTION

Member profiles link to HoodSearch listings. Network events promoted on LiveVue. New members get Academy course bundle. Business members → ComEd commercial enrollment. SSBN directory → NextcallPro for contractor members.

### TIMELINE

30d: Member directory + event schema 60d: Resource guides + referral program 90d: LinkedIn ads + event cadence

## 8. ComEd Signup

comed.blacktechsolutionscorp.com :8095

HIGH

CURRENT STATE

ComEd energy enrollment / lead capture page. Revenue-generating through energy program commissions. Port 8095. Already has share button, lead API, flyer generator.

SEO STRATEGY

Target keywords: ComEd energy savings reduce electric bill Chicago free energy assessment Illinois ComEd energy efficiency program lower electric bill south suburbs

Meta tags: Service schema, LocalBusiness schema, FAQPage ("How do I reduce my ComEd bill?", "What is a free energy assessment?"), Review schema. Landing page optimized for "ComEd" + "energy savings" + "free assessment". Create ZIP-code-specific landing pages for south suburbs.

CONTENT STRATEGY

Cost savings calculator (input bill → see potential savings). Energy tips blog ("5 ways to reduce your ComEd bill", "What is a smart thermostat?"). Seasonal campaigns ("Winter heating savings", "Summer AC efficiency"). Success stories with before/after bills. FAQ page addressing common enrollment questions.

GROWTH TACTICS

**Organic:** Flyer distribution at libraries, churches, community centers (see Partnerships). Nextdoor posts about energy savings. GBP posts linking to signup. ComEd co-branded PDF distribution. **Paid:** Google Ads "reduce electric bill Chicago" (geo-targeted), Facebook lead-gen ads targeting homeowners 30+ in south suburbs, Instagram boosted posts for seasonal campaigns.

CROSS-PROMOTION

After enrollment → NextcallPro CTA ("Need an electrician for upgrades?"). Signup page → Academy energy course offer. Thank-you page → HOOD token reward. All emails → SSBN join. Flyer QR codes → direct to signup.

TIMELINE

30d:

 FAQ schema + ZIP-code pages + flyer refresh

60d:

 Savings calculator + Google Ads

90d:

 Seasonal campaigns + success stories

## 9. Social Dashboard

social.blacktechsolutionscorp.com :8097

LOW

CURRENT STATE

Social media management dashboard for scheduling and monitoring posts across platforms. Port 8097. Internal tool.

SEO STRATEGY

Internal tool — SEO not primary focus. However, public-facing login page should have basic meta tags and Organization schema linking to main site. No-index internal pages.

CONTENT STRATEGY

Not a content platform — it's a tool. Focus on: content calendar templates, post scheduling workflow, analytics integration. Create a "social media playbook" internal doc defining what to post where and when.

GROWTH TACTICS

**Organic:** N/A — internal tool. **Paid:** N/A. Focus on operational efficiency: automate cross-posting to all platforms, schedule weekly content cadence, track engagement metrics.

CROSS-PROMOTION

Dashboard should auto-generate cross-platform posts (one post → formatted for FB, IG, X, LinkedIn, Nextdoor). Every scheduled post includes ecosystem links. Analytics feed into KPI tracking (see Section 9).

TIMELINE

30d:

 Content calendar + cross-posting setup

60d:

 Analytics dashboard

90d:

 Automated scheduling

## 10. HBO (HOOD Business Org)

hood.blacktechsolutionscorp.com :8094

MEDIUM

### CURRENT STATE

Business organization platform — formalized business entity management. Port 8094.

### SEO STRATEGY

Target keywords: **Black business organization Chicago** **business formation Illinois** **Black entrepreneur support** **business org for Black-owned businesses**

Meta tags: Organization schema, Service schema (business formation, compliance, support), FAQPage ("How to start a business in Illinois"), BreadcrumbList. Member directory with LocalBusiness schema.

### CONTENT STRATEGY

Business formation guides (LLC, S-Corp, nonprofit). Compliance checklists. Member benefits page. Resource library (templates, contracts, SOPs). Member success stories. Monthly business workshop announcements.

### GROWTH TACTICS

**Organic:** Partner with SBDC, SCORE, local chambers. SEO for "start a business in Illinois" + "Black business support Chicago". LinkedIn content marketing.

**Paid:** LinkedIn ads targeting aspiring entrepreneurs. Facebook ads for business formation services.

### CROSS-PROMOTION

HBO members → automatically listed on HoodSearch + Next/SSBN. Business formation → ComEd commercial enrollment. Member resources → Academy business courses. Events → LiveVue streaming.

### TIMELINE

**30d:** Formation guides + schema **60d:** Member directory + resource library **90d:** Workshop cadence + LinkedIn

## 4 Organic Growth Strategy

Organic exposure is the foundation. Every platform must be optimized for search, cross-promoted, and fed with consistent content before any paid dollars are spent.

### SEO FOUNDATION (ALL PLATFORMS)

- **Google Search Console:** Verify all 10 domains/subdomains. Submit XML sitemaps. Monitor index coverage and keyword rankings monthly.
- **Bing Webmaster Tools:** Submit all sitemaps. Bing drives ~10% of search traffic and is underutilized by competitors.
- **Schema markup:** Every platform gets JSON-LD structured data (Organization, LocalBusiness, Course, VideoObject, Service, FAQPage, Article). This is the #1 organic lever.
- **Page speed:** All platforms must pass Core Web Vitals. Compress images, lazy-load videos, minify CSS/JS. Use Google PageSpeed Insights to audit monthly.
- **Internal linking:** Every page on every platform links to at least 2 other Blacktech platforms. Build a "Blacktech Ecosystem" footer widget on all properties.
- **Local SEO:** Command Center + NextcallPro + ComEd must have optimized Google Business Profiles with weekly posts, photos, and review responses.

### CROSS-PROMOTION ENGINE

- **Universal footer:** All 10 platforms share a common footer with links to every other platform (icon + name + one-line description).
- **Email signatures:** All outbound emails include 3 rotating platform CTAs (e.g., "Take a free Academy course", "Find a Black contractor on HoodSearch", "Save on your ComEd bill").
- **Social bios:** All social profiles link to a linktree-style page on Command Center that lists all 10 platforms.
- **QR codes:** Every printed material (flyers, business cards, invoices) includes QR codes to 2-3 platforms. Generate via Python qrcode library.

### CONTENT FUNNEL

- **Top of funnel (awareness):** Academy courses, LiveVue videos, blog posts answering "what is" questions. Target: "free AI course", "energy education", "what is blockchain".
- **Mid funnel (consideration):** HoodSearch contractor profiles, ComEd savings calculator, Academy certificates. Target: "find a contractor", "reduce electric bill", "Black contractor near me".

- **Bottom funnel (conversion):** NextcallPro lead forms, ComEd signup, HBO membership, HOOD token wallet. Target: "hire electrician", "ComEd enrollment", "join business network".

## GOOGLE BUSINESS PROFILE POSTS (WEEKLY)

- **Monday:** Academy course spotlight (with link to course page)
- **Wednesday:** Project photo / before-after (link to NextcallPro)
- **Friday:** Energy savings tip (link to ComEd signup)
- **Monthly:** Platform announcement (new feature, new course, new token utility)

## NEXTDOOR STRATEGY

- Create Nextdoor business page for Blacktech Solutions Corp (electrical contractor category).
- Post weekly in south suburbs neighborhoods (Dolton, Calumet City, Harvey, South Holland, Chicago Heights, Lansing, Glenwood).
- Content: energy tips, "did you know" electrical safety, ComEd program reminders, contractor availability announcements.
- Respond to every "need a recommendation" post for electricians/contractors in target neighborhoods.
- Run Nextdoor local ads for ComEd signup (\$50/week budget).

# 5 Paid Advertising Strategy

Paid advertising supplements organic growth. Start lean, measure, scale what works. All campaigns geo-target Chicagoland south suburbs.

## GOOGLE ADS

- **NextcallPro:** "Chicago electrician", "electrical contractor Dolton IL", "emergency electrician south suburbs". Exact + phrase match. Landing: NextcallPro city pages. Budget: \$300/month. **Priority: HIGH.**
- **ComEd Signup:** "reduce electric bill Chicago", "ComEd energy savings", "free energy assessment Illinois". Landing: ComEd signup page. Budget: \$200/month. **Priority: HIGH.**
- **Command Center:** "electrical contractor Dolton IL" (branded + local). Landing: Command Center homepage. Budget: \$150/month. **Priority: MED.**
- **HoodSearch:** "Black contractor directory Chicago", "find Black electrician". Landing: HoodSearch category pages. Budget: \$100/month. **Priority: MED.**
- **Academy:** "free AI courses Chicago", "learn blockchain free". Landing: Academy catalog. Budget: \$100/month. **Priority: MED.**
- **Retargeting:** All visitors across all platforms, 30-day cookie. Dynamic ads showing the platform they visited + 1 other. Budget: \$150/month.

## FACEBOOK / INSTAGRAM BOOSTED POSTS

- **Academy:** Boost course spotlight posts to 18-35, south side zip codes, interest: education, technology, career advancement. \$50/week.
- **ComEd:** Boost energy savings tips to homeowners 30+, south suburbs. \$50/week.
- **NextcallPro:** Boost before/after project photos to homeowners 25+, south suburbs. \$40/week.
- **HoodSearch:** Boost contractor spotlight to south side, interest: home improvement, Black culture. \$30/week.
- **LiveVue:** Boost 60-sec video clips as Reels ads. \$25/week.

## LINKEDIN ADS

- **Next/SSBN:** Target Black business owners, entrepreneurs in Chicagoland. "Join the South Side Business Network". \$100/month.
- **HBO:** Target aspiring entrepreneurs, business formation interest. "Start and grow your business with HBO". \$75/month.
- **Command Center:** Target commercial property managers, GCs, developers in Chicago. "Licensed electrical contractor, Dolton IL". \$75/month.

### TOTAL PAID BUDGET — RECOMMENDED START

\$1,500/month across all platforms. Scale winners, cut losers after 60 days. Review ROAS (return on ad spend) per platform monthly.

# 6 Partnerships & Community Outreach

Grassroots, in-person exposure builds trust that digital ads cannot. Every flyer, every church bulletin, every library rack plants a seed.

LIBRARY FLYER PROGRAM

- **Target libraries:** Dolton Public, Calumet City Public, Harvey Public, Chicago Heights Public, South Holland Public, Lansing Public, Markham Public.
- **Flyer types:** (1) Academy course flyer with QR code, (2) ComEd energy savings flyer with QR code, (3) HoodSearch contractor directory flyer, (4) Next/SSBN business network flyer.
- **Cadence:** Drop 50 flyers per library, refresh monthly. Track QR code scans per location to measure ROI.
- **Design:** Orange/green marketing palette (dark #0a0a0f background, #f59e0b orange + #69BE28 green). Tear-off tabs with phone number + short URL. See library-outreach-flyer reference in the document-templates skill.

CHURCH OUTREACH

- Identify 10-15 south side churches with active community outreach programs.
- Offer free Academy course enrollment for church youth programs (AI + energy education).
- Place ComEd energy savings flyers in church bulletins/community boards.
- Sponsor a "Community Energy Day" — free energy assessment signups at church events.
- Offer church members HOOD token rewards for completing Academy courses.

CONTRACTOR REFERRAL PROGRAM

- Every NextcallPro contractor gets a referral code. When they refer a homeowner who books a job, they earn HOOD tokens.
- Contractors listed on HoodSearch get a "Verified by Blacktech" badge.
- Contractor onboarding kit: HoodSearch profile setup + NextcallPro account + Academy course access + ComEd enrollment authority.
- Monthly contractor mixer (in-person + LiveVue live stream) to build the network.

COMMUNITY CENTERS

- Partner with south side community centers (Park District field houses, YMCA branches, community resource centers).
- Host free "Energy Savings Workshop" — 1-hour session, Academy course preview + ComEd signup on-site.
- Provide Academy course access kiosks (tablet + QR code) at community center lobbies.
- Co-sponsor STEM/AI education nights for youth — Academy courses as curriculum.

7 30/60/90 Day Action Plan

Numbered tasks, assigned to phases. Each task is actionable and measurable.

| # | PHASE   | TASK                                                                                           | PLATFORM                           | OWNER         |
|---|---------|------------------------------------------------------------------------------------------------|------------------------------------|---------------|
| 1 | 30 Days | Verify all 10 domains in Google Search Console; submit XML sitemaps                            | All platforms                      | Derrell / Dev |
| 2 | 30 Days | Add JSON-LD schema markup (Organization, LocalBusiness, Course, Service, FAQ) to all platforms | All platforms                      | Dev           |
| 3 | 30 Days | Optimize Google Business Profile — update NAP, services, photos, hours; enable weekly posts    | Command Center, NextcallPro, ComEd | Derrell       |
| 4 | 30 Days | Create universal ecosystem footer widget (all 10 platforms linked) and deploy to all sites     | All platforms                      | Dev           |
| 5 | 30 Days | Build NextcallPro city landing pages (Dolton, Calumet City, Harvey, South Holland, Chicago)    | NextcallPro                        | Dev           |
| 6 | 30 Days | Add Course schema to Academy; create course catalog grid page                                  | Academy                            | Dev           |

|    |         |                                                                                                |                                         |               |
|----|---------|------------------------------------------------------------------------------------------------|-----------------------------------------|---------------|
| 7  | 30 Days | Add VideoObject schema to LiveVue; submit RSS feed to podcast directories                      | LiveVue                                 | Dev           |
| 8  | 30 Days | Build HoodSearch category pages (electrical, plumbing, HVAC, roofing, general)                 | HoodSearch                              | Dev           |
| 9  | 30 Days | Create ComEd ZIP-code landing pages; refresh flyer design; print 500 flyers                    | ComEd                                   | Derrell       |
| 10 | 30 Days | Set up Social Dashboard content calendar; configure cross-posting to FB/IG/X/LinkedIn/Nextdoor | Social Dashboard                        | Derrell       |
| 11 | 30 Days | Create Nextdoor business page; begin weekly posts in 7 target neighborhoods                    | Command Center, ComEd                   | Derrell       |
| 12 | 30 Days | Design and print 4 flyer types (Academy, ComEd, HoodSearch, SSBN); distribute to 7 libraries   | Academy, ComEd, HoodSearch, SSBN        | Derrell       |
| 13 | 60 Days | Launch Google Ads campaigns for NextcallPro + ComEd (geo-targeted south suburbs)               | NextcallPro, ComEd                      | Derrell       |
| 14 | 60 Days | Publish 5 Academy courses live with video lessons embedded from LiveVue                        | Academy, LiveVue                        | Derrell / Dev |
| 15 | 60 Days | Onboard 20 contractors to HoodSearch with verified profiles                                    | HoodSearch                              | Derrell       |
| 16 | 60 Days | Build ComEd cost savings calculator tool                                                       | ComEd                                   | Dev           |
| 17 | 60 Days | Launch weekly blog cadence on NextcallPro (2 posts/week: safety + cost guides)                 | NextcallPro                             | Derrell       |
| 18 | 60 Days | Launch weekly LiveVue upload schedule (Mon/Wed/Fri)                                            | LiveVue                                 | Derrell       |
| 19 | 60 Days | Integrate Academy completion → HOOD token reward system                                        | Academy, HoodToken                      | Dev           |
| 20 | 60 Days | Launch Facebook/Instagram boosted post program (\$50/week across platforms)                    | Academy, ComEd, NextcallPro, HoodSearch | Derrell       |
| 21 | 60 Days | Build Next/SSBN member directory with 25 founding members; launch referral program             | Next/SSBN                               | Derrell       |
| 22 | 60 Days | Begin church outreach — contact 10 churches, propose Community Energy Day                      | ComEd, Academy                          | Derrell       |
| 23 | 60 Days | Launch LinkedIn ads for Next/SSBN + HBO (\$175/month total)                                    | Next/SSBN, HBO                          | Derrell       |
| 24 | 90 Days | Review Google Ads ROAS per campaign; cut underperformers, scale winners                        | All paid                                | Derrell       |
| 25 | 90 Days | Implement Academy certificate system (PDF generation on completion)                            | Academy                                 | Dev           |
| 26 | 90 Days | Launch NextcallPro video testimonials (5 videos on LiveVue, embedded on NextcallPro)           | NextcallPro, LiveVue                    | Derrell       |
| 27 | 90 Days | Build retargeting pixel network across all platforms; launch dynamic retargeting               | All platforms                           | Dev           |
| 28 | 90 Days | Host first Community Energy Day at a partner church (free assessments + ComEd signups)         | ComEd, Academy                          | Derrell       |
| 29 | 90 Days | Launch HoodToken "Learn to Earn" campaign with Twitter/X presence                              | HoodToken, Academy                      | Derrell       |
| 30 | 90 Days | Launch LiveVue live stream: monthly "Community Energy Hour"                                    | LiveVue                                 | Derrell       |
| 31 | 90 Days | Run first monthly contractor mixer (in-person + LiveVue live stream)                           | NextcallPro,                            | Derrell       |

|    |         |                                                                                                                  |                  |         |
|----|---------|------------------------------------------------------------------------------------------------------------------|------------------|---------|
|    |         | HoodSearch, LiveVue                                                                                              |                  |         |
| 32 | 90 Days | Publish first "Ecosystem Report" — metrics across all 10 platforms (traffic, leads, signups, token distribution) | All platforms    | Derrell |
| 33 | 90 Days | Set up automated KPI dashboard (Social Dashboard analytics → reporting page)                                     | Social Dashboard | Dev     |

## 8 Budget Estimate — Free vs Paid Tier

Two tiers: bootstrap (free tools only) and growth (paid ads + premium tools). Start at free tier, graduate to paid tier as revenue from ComEd enrollments and NextcallPro jobs justifies.

| CATEGORY               | FREE TIER (BOOTSTRAP)                                                                                            | PAID TIER (GROWTH)                                                                                                                  |
|------------------------|------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| SEO Tools              | Google Search Console (free), Bing Webmaster Tools (free), Google PageSpeed Insights (free), schema markup (DIY) | + Ahrefs Lite (\$99/mo) or SEMrush Pro (\$130/mo) for keyword tracking + competitor analysis                                        |
| Google Ads             | \$0 — organic only                                                                                               | \$850/mo (NextcallPro \$300, ComEd \$200, Command Center \$150, HoodSearch \$100, Academy \$100, retargeting \$150 — reduce others) |
| Facebook/IG Boosted    | \$0 — organic posts only                                                                                         | \$195/mo (\$50/wk Academy + \$50/wk ComEd + \$40/wk NextcallPro + \$30/wk HoodSearch + \$25/wk LiveVue)                             |
| LinkedIn Ads           | \$0 — organic LinkedIn posts                                                                                     | \$250/mo (SSBN \$100, HBO \$75, Command Center \$75)                                                                                |
| Nextdoor Ads           | \$0 — organic Nextdoor posts                                                                                     | \$200/mo (\$50/wk ComEd signup)                                                                                                     |
| Print Materials        | \$50/mo (self-printed flyers, library distribution)                                                              | \$200/mo (professional printing, 500 flyers + business cards + QR code stands)                                                      |
| Content Creation       | \$0 (Derrell + AI tools — Gemini/Claude for blog posts, Canva free for graphics)                                 | \$300/mo (freelance writer 4 blog posts/mo + freelance video editor for LiveVue clips)                                              |
| Email Marketing        | \$0 (Gmail/HostGator SMTP)                                                                                       | \$20/mo (Mailchimp free tier up to 500 contacts, then \$13-20/mo)                                                                   |
| Hosting/Infrastructure | \$0 (self-hosted on existing Raspberry Pi / VPS infrastructure)                                                  | \$50/mo (backup VPS + CDN for speed)                                                                                                |
| QR Code Generation     | \$0 (Python qrcode library)                                                                                      | \$0 (same — no paid QR tool needed)                                                                                                 |
| TOTAL / MONTH          | ~\$50/mo                                                                                                         | ~\$1,915/mo                                                                                                                         |

### REVENUE JUSTIFICATION

At the paid tier (~\$1,915/mo), the plan needs to generate **~\$2,500/mo in gross revenue** to be profitable (assuming 75% margin on ComEd commissions + NextcallPro jobs). That's approximately 5-8 ComEd enrollments or 3-4 NextcallPro jobs per month — easily achievable with the exposure growth this plan drives.

## 9 KPIs to Track Per Platform

What gets measured gets managed. Track these metrics monthly via Google Search Console, Google Analytics, and the Social Dashboard.

| PLATFORM |
|----------|
|----------|

|                  | PRIMARY KPI                      | SECONDARY KPIS                                                                     | TARGET (90 DAYS)         |
|------------------|----------------------------------|------------------------------------------------------------------------------------|--------------------------|
| Command Center   | Organic search clicks            | Bounce rate, avg session duration, ecosystem footer clicks                         | 500+ organic clicks/mo   |
| NextcallPro      | Lead form submissions            | Organic keyword rankings, cost per lead (paid), conversion rate                    | 20+ leads/mo             |
| HoodSearch       | Contractor profiles listed       | Search queries, search-to-profile click rate, new contractor signups               | 50+ verified contractors |
| Academy          | Course enrollments               | Course completion rate, certificate downloads, referral to HOOD token              | 100+ enrollments         |
| LiveVue          | Video views (monthly)            | Unique viewers, avg watch time, channel subscriptions, cross-platform embed clicks | 500+ views/mo            |
| HoodToken        | Token wallets created            | Tokens distributed, tokens spent, Academy-to-token conversion rate                 | 50+ wallets              |
| Next/SSBN        | Active members                   | Event attendance, member referrals, directory listing views                        | 25+ active members       |
| ComEd Signup     | Lead form submissions            | Flyer QR scans, cost per enrollment (paid), conversion rate                        | 30+ enrollments/mo       |
| Social Dashboard | Posts published (cross-platform) | Engagement rate per platform, follower growth, scheduling automation %             | 20+ posts/wk             |
| HBO              | Member registrations             | Resource downloads, workshop attendance, business formation completions            | 15+ members              |

MONTHLY REVIEW CADENCE

Every 30 days, pull all KPIs into a single "Ecosystem Report" (generate as branded HTML using the weekly-audit template pattern). Review what's working, what's not, and adjust the action plan. The plan is a living document — adapt tactics based on data, not assumptions.
